Development of a Statewide Policy for Water Recycling

Dear Chair Doduc and Board Members:

The Metropolitan Water District of Southern California appreciates the opportunity to have participated in your workshop of March 20, 2007 regarding development of a statewide Water Recycling Policy. We wish to make it known that we support the written comments submitted on this matter by the WaterReuse Association in its March 27, 2007 letter. Establishing an improved permitting process for recycled water is essential to Southern California effectively planning and developing a reliable future water supply.

Very truly yours,

for
Stephen N. Arakawa
Water Resource Manager
